

# Annual Wildflower Mix

granite  
**SEED**  
and erosion control

Mix compositions may change year to year based on availability, but the species listed below are typical for the mix.

*Apply at 1 lb. per 2,000 ft<sup>2</sup>*

## Annual Mix

Use to replenishing the color of an existing perennial garden.

*Bird's-eye gilia, California poppy, Cornflower, Cosmos, Drummond phlox, Farewell to spring, Firewheel, Mountain phlox, Moroccan toadflax, Plains Coreopsis, Rocky Mountain beeplant, Scarlet flax, Shirley mixed poppy, Sulfur Cosmos, and Wallflower*

Wildflower mixes create attractive clusters of changing colors throughout the growing season, while also providing essential food and nesting habitat for beneficial insects and pollinators. Our **Annual Wildflower Mix** offers a variety of colors that will bloom throughout the growing season. This mix will make a great addition to any area of your landscape that you want to enhance the color with wildflowers that are not commonly found in typical store-bought seed mixes. This wildflower mix contains no grasses and no fillers. We pride ourselves on our professional-grade wildflower seeds.
